# Gain total control over the format, content, and delivery of your transcripts

The Transcript Solution from Evisions Professional Services enables Registrars to add flexibility to, and gain control over, transcript design and delivery. Move beyond the limitations of standard Banner transcripts by managing the layout, fonts, and graphics. This can include configurable formatting for GPA and other calculations, along with the ability to capture and include any data not in Banner's standard transcripts. Then, determine the output delivery method that works best for you.

## Benefits of the Evisions Transcript Solution

### Frees up your time

Evisions does all the work

### No per-transcript fee

Enterprise license allows for unlimited transcript transactions

### Ensures compatibility

Evisions maintains compatibility of transcripts with each new release of Banner

### Delivery options

Print transcripts directly or deliver electronically via email or third party imaging

### Complete control

You manage the look, content, and delivery of your transcript, including custom formatting and logos for multiple colleges or campuses

### Integration flexibility

Integrates with Banner, Self-Service Banner and external transcript management services

### Secure Personal Data

Evisions staff is trained in FERPA compliance and takes into consideration sensitive data visibility

## With the Evisions Transcript Solution You Can:

- Add data not on the standard transcript
- Configure the layout and orientation
- Customize sorting, grouping and order of data
- Add GPA calculations
- Use custom tables and fields
- Have unique official and unofficial formats
- Utilize duplex printing and signatures
- Process transcripts online or on a secure workstation

After

## Transcript Implementation & Delivery

Implementation is easy because the Transcript Solution integrates with Ellucian's Banner system, as well as other external transcript management services. Implementation can be completed in just four basic steps:

1. Requirements and samples are collected
2. Evisions creates the custom transcript
3. Client and Evisions test the transcript
4. Solution is moved into production

Once into production, desired transcripts can be selected and sent in just a few more easy steps:

- 1 Select method of student entry
- 2 Whose transcript?
- 3 Where is it going?
- 4 What's being requested?
- 5 Submit

The Evisions Transcript Solution utilizes the Evisions Argos development platform to allow for maximum flexibility. However, if your institution does not have Argos you can still use the Transcript Solution. This means you can have great transcripts regardless of the Evisions software you currently own. The one-time license

fee plus annual maintenance cost gives you unlimited official and unofficial transcript processing. The Evisions Transcript Solution is designed to give each institution their ideal transcript with minimal effort. Deliverables include the necessary Argos license, training & installation, user's guide, and a custom formatted transcript.

# What customers are saying about Professional Services

"We can make all the important information appear in a way that works best for our students."

**Robert Nitsos**

*Associate Registrar, Student Information Systems  
Loyola Marymount University*

"I get excited when I think of all the work that Evisions saves us when compared to modifying Banner baseline programs."

**Melva Williams**

*Director of Internal Relations  
Xavier University of Louisiana*

"All individuals I have dealt with on the Professional Services team have been extremely professional and knowledgeable."

**Delano Sweeney**

*Database Systems Manager  
Bluefield State College*

"I found the Evisions Professional Services team to be very helpful and gets to the heart of the matter so that they can help you."

**Lynn Kohn**

*University Registrar  
University of New Haven*
